INDUSTRIAL

Finding workers with the skills required to meet today's advanced manufacturing requirements has become an increasingly complex and difficult challenge.

The answer to meeting an ever widening skills gap is to develop talent internally, a cost effective and efficient alternative to the revolving door of under-skilled employees and turnover.

From classes introducing under-skilled workers to fundamental topics, to the most advanced technical training available, Penn College offers a complete range of industrial training to meet the needs of manufacturers. Our Mechatronics Program bundles the essential skills required for advanced technicians into an industry recognized set of certificates.

Any of our industrial courses can be combined, scaled, or customized to fit your company's needs. Call us today at **570.327.4775** to learn more.

◇ Apprenticeship

◇ Robotics

◇ CNC

◇ Machining

◇ Welding

◇ Safety/OSHA

◇ CAD

This is not a complete list. We offer nearly all type of industrial training.

Penn College specializes in apprenticeship programs.

APPRENTICESHIP

Apprenticeships are a proven way to meet the increasing demand for a highly-skilled workforce. Penn College offers apprenticeship programs in the following industrial topics:

- ◇ Robotics & Automation
- ◇ Mechatronics
- ◇ Plastics Process Technician
- ◇ Industrial Manufacturing Technician
- ◇ CNC Precision Machinist
- ◇ Maintenance Technician (Intro-MECH)

Industrial Electrical Series

- ◇ Fundamentals of Industrial Electricity
- ◇ Techniques for Electrical Troubleshooting
- ◇ Electrical Hazard Safety Training

Machine Shop

- ◇ Manual or Computerized Numerical Control (CNC)
- ◇ Machining Application
- ◇ Machine Shop Essentials
- ◇ Customized CNC Training

Other Industrial Topics

- Robotics
- Building Essential Welding Skills
- AWS & API Welding Certifications
- Blueprint Reading
- Geometric Dimensioning and Tolerancing
- Statistical Process Control (SPC)
- OSHA 10 & 30 General Industry
- Forklift - Industrial and Rough Terrain
- Mobile Elevated Work Platform (MEWP)
- Scaffolding
- CAD
- Other Safety/OSHA Topics
