

Appendix 4

Construction of Polygons

Procedures:

- This activity involves providing the teachers with a variety of geometric shapes (triangles, quadrilaterals, pentagons, hexagons, etc.).
- Teachers will be instructed to construct specific geometric shapes (triangles, quadrilaterals, pentagons, hexagons, etc.) using any combination of two or more geometric shapes provided

Materials:

- A variety of plastic geometric shapes

Observation of Teachers:

- Allow exploration time/facilitator observe
