BCM350 –Jobsite Construction Management

Great Library Resources to Get You Started

[Proquest](#) – Use Proquest for finding scholarly or peer-reviewed or professional journal articles. What else does it do?

- Lets you limit to only scholarly or trade articles
- Suggests other words you can try searching with 1 click
- Provides citations for articles you find in APA format
- Provides 1 click access to request an article from another library

[WorldCat Library Catalog](#) – Use WorldCat to look up books and other resources available here at Penn College and other libraries

- Searches the Madigan Library and more
- Provides citations for books you find in APA format
- Provides 1 click access to request a book from another library

Can't find what you need at the library? Get it sent to you!

ILLiad is the library's loan service. With ILLiad, you can get articles we don't have in the library sent to your email and have books from other libraries sent here for you. It's free! Look for the icons below in Proquest or WorldCat to get something through ILLiad. You'll need to create an account first, but that can be done from anywhere at any time.

Magazines & Journals

[Building & Construction Journals available at the Library](#)

Web Resources for Construction

The [Journal of Light Construction](#) is a monthly magazine serving residential and light-commercial builders, remodelers, designers, and other trade professionals. It provides unbiased coverage of products, materials, and building techniques as well as hands-on management advice.

Tip: Search the journal archives online and get the full articles from the CD-ROM at the library's Reference Desk.

Search the magazine [Fine Homebuilding](#) for articles with detailed instructions and illustrations. The Madigan Library has all the Fine Homebuilding magazines from 1991 through today.

[MADCAD.com](#) provides online access to building codes and standards.

You can search all publications by keyword or go directly to a specific publication. MADCAD has two of the most requested Building & Construction standards: The ICC (International Code Council) books, including the International Residential Code and the NFPA (National Fire Protection Association)

Citing Sources APA Style

The [Citation Creator](#) can be accessed with your network ID and password. This will help you build a citation for a website or an article that didn't provide a citation. The [Citation Builder](#) is another "plug-in" tool you can use.
