

Business & Computer Technologies

**“I’m very confident
that once I graduate,
I’ll have my pick of jobs.”**

degrees that work.

Michael Altobelli

Degree: Information Technology: Information Assurance & Security Concentration

Hometown: Eldersburg, MD

Michael takes his learning beyond the classroom by fixing computers for fellow students at the Student Help Desk and gaming with the Association for Computing Machinery (ACM) which holds biweekly gatherings and an annual LAN party, attracting over 200 gamers to the college’s Field House.

"We help students create a foundation for professional success, challenging them to broaden their horizons while developing the long-term values, capacity for independent thinking, and interest in lifelong learning that are hallmarks of successful leaders."

Dr. Edward A. Henninger

Dean, School of Business & Computer Technologies

Penn College is a special mission affiliate of Penn State, committed to applied technology education. Bachelor's and associate's degrees in more than 100 fields are focused on applied technologies ranging from manufacturing, design, transportation, and construction to hospitality, health, business, and natural resources. Business/industry connections, national corporate sponsors, small classes, industry-standard equipment and faculty with work experience contribute to strong graduate placement rates.

Business and industry connections play a vital role in students' success in the workplace and position Penn College as a leader in higher education and workforce development.

An affiliate of The Pennsylvania State University

Penn College operates on a nondiscriminatory basis.
