German and Austrian study abroad programs are open to Penn College students interested in studying business and management for one semester in a foreign country. More details are available online.

"We help students create a foundation for professional success, challenging them to broaden their horizons while developing the long-term values, capacity for independent thinking, and interest in lifelong learning that are hallmarks of successful leaders."

Dr. Edward A. Henninger

Dean, School of Business & Computer Technologies

Penn College is a special mission affiliate of Penn State, committed to applied technology education.

More than 6,500 students are enrolled in bachelor-degree, associate-degree, and certificate majors representing more than 100 career areas. Small classes, hands-on learning, industry-standard equipment, and faculty with real-world work experience contribute to Penn College's excellent graduate-placement rates.

Business and industry connections play a vital role in students' success in the workplace and position Penn College as a leader in higher education and workforce development.

An affiliate of The Pennsylvania State University

Penn College operates on a nondiscriminatory basis.

Penn College® is registered in U.S. Patent and Trademark Office.
