“Our goal is to be the nation’s leader in every transportation-related major. Therefore, we have gathered together the finest professors, facilities, curriculum, and equipment to be found anywhere. If you wish to learn from the best, in order to be the best, then we are interested in having you as our student.”

Colin W. Williamson

Dean, School of Transportation Technology

Penn College is a special mission affiliate of Penn State, committed to applied technology education. Bachelor's and associate's degrees in more than 100 fields are focused on applied technologies ranging from manufacturing, design, transportation, construction and natural resources to hospitality, health, business and communication. Business/industry connections, national corporate sponsors, small classes, industry-standard equipment and faculty with work experience contribute to strong graduate placement rates.

Business and industry connections play a vital role in students' success in the workplace and position Penn College as a leader in higher education and workforce development.

An affiliate of The Pennsylvania State University

Penn College operates on a nondiscriminatory basis.

Penn College® and degrees that work® are registered in the U.S. Patent and Trademark Office.
