

Pennsylvania College of Technology

School: School of Nursing & Health Sciences

Department: Department of Physical Therapist Assistant

Course Number and Section: PTA 275

Course Title: Level 2B Clinical Experience

Course Instructor: Christine Tilburg, PT

Date: Summer Year 2

Location: Clinical Education Site

Credits: 3 Credits (280 Hours)

Office Location:	ATHS W207A
Phone:	570 320-2400 ext. 7614
Email:	cat19@pct.edu
Office hours:	By scheduled appointment

PTA Secretary, Lezli Zeafla Phone:	570-329-4439
---------------------------------------	--------------

Course Description:

A minimum of seven weeks of full-time clinical education experience in acute care, outpatient, long-term care, or specialty setting to follow successful completion of Level 2A Clinical Experience. This is the final supervised clinical experience for students and should be completed in a setting not previously utilized for clinical education. Practical experience encounters allow students to integrate and apply knowledge and skills with diverse patients of varied ages and conditions. All activities are performed in the presence of a licensed physical therapist. Completion of all coursework of the PTA curriculum, Level 2A Clinical Experience, current CPI certification, and approval of the department are required prior to beginning this course. Grading evaluated as Satisfactory or Unsatisfactory. NOTE: Student is responsible for room, board, and all transportation to and from the clinical site. Designed to provide a minimum of 280 clinical education hours.

Special Designator: None

Credit Hours: 3 Credits (0 Lecture – 9 Clinical Experience)

Pre-Requisites: None

Co-Requisites: PTA 270

Scheduling (Optional): Summer Only

Rationale:

This is the third and final clinical opportunity for students to integrate hands-on skills and knowledge learned during the academic portion of study and apply techniques to clinical situations. Completion of this course satisfies the Commission on Accreditation in Physical Therapy Education (CAPTE) requirement for full-time clinical education in an accredited physical therapist assistant program and prepares the student to gain employment as an entry-level physical therapist assistant.

Student Outcomes:

Upon successful completion of this course, the student should be able to meet the following required student outcomes at a minimum rating of Entry-Level Performance as measured by the APTA PTA Clinical Performance Instrument (CPI 3.0):

1. demonstrate professionalism through ethical and legal practice;
2. evaluate clinical performance and seek educational opportunities for professional growth;
3. demonstrate effective verbal and nonverbal communication with patients, caregivers, and other healthcare professionals;
4. provide inclusive and equitable care with consideration for patient diversity;
5. interpret data from multiple sources to make sound clinical decisions;
6. perform selected technical and procedural interventions in a safe and effective manner;
7. produce quality documentation and accurate billing that supports facility and payer requirements; and
8. demonstrate efficient delivery of physical therapy services.

Course Competencies:

The student should be able to achieve a minimum rating of Entry-Level Performance on the following criteria from the APTA PTA Clinical Performance Instrument (CPI 3.0):

1. Demonstrate professionalism through ethical and legal practice (Professionalism: Ethical Practice/Professionalism: Legal Practice);
 1. Practices according to the Standards of Ethical Conduct.
 2. Demonstrates respect for self, the patient/client, and colleagues in all situations.
 3. Practices according to legal and professional standards, including all federal, state, and institutional regulations related to patient/client care and fiscal management.
2. Evaluate clinical performance and seek educational opportunities for professional growth (Professionalism: Professional Growth);
 1. Accepts and is receptive to feedback.

2. Participates in planning and/or self-assessment to improve clinical performance.
 3. Contributes to the advancement of the clinical setting through educational opportunities.
 4. Seeks out opportunities to improve knowledge and skills.
3. Demonstrate effective verbal and nonverbal communication with patients, caregivers, and other healthcare professionals (Interpersonal: Communication);
 1. Demonstrates professional verbal and non-verbal communication with all stakeholders (e.g., patients/clients, caregivers, intra/interprofessional colleagues).
 2. Adapts to diverse verbal and nonverbal communication styles during patient/client interactions.
 3. Utilizes communication resources (e.g., interpreters) as appropriate.
 4. Incorporates appropriate strategies to engage in challenging encounters with patients/clients and others.
 5. Facilitates ongoing communication with physical therapist regarding patient/client care.
4. Provide inclusive and equitable care with consideration for patient diversity (Interpersonal: Inclusivity);
 1. Delivers physical therapy services with consideration for patient/client diversity and inclusivity for all regardless of age, disability, ethnicity, gender identity, race, sexual orientation, or other characteristics of identity.
 2. Provides equitable patient/client care that does not vary in quality based on the patient's/client's personal characteristics (e.g., ethnicity, socioeconomic status).
5. Interpret data from multiple sources to make sound clinical decisions (Technical/Procedural: Clinical Reasoning);
 1. Strategically gathers, interprets, and synthesizes information from multiple sources to make effective clinical judgments.
 2. Applies current knowledge and clinical judgement while supporting the physical therapist with clinical activities.
 3. Ensures patient/client safety during the episode of care.
 4. Presents a logical rationale for clinical decisions with all stakeholders (e.g., patients/clients, caregivers, intra/interprofessional colleagues).
6. Perform selected technical and procedural interventions in a safe and effective manner (Technical/Procedural: Interventions);

1. Performs selected therapeutic exercises, manual therapy techniques, airway clearance, and integumentary repair and protection techniques in a competent manner (Technical/Procedural: Interventions: Therapeutic Exercise and Techniques).
 2. Applies selected mechanical and electrotherapeutic modalities in a competent manner (Technical/Procedural: Interventions: Mechanical and Electrotherapeutic Modalities).
 3. Performs functional training in self-care and home management, including therapeutic activities; performs application and adjustment of devices and equipment in a competent manner (Technical/Procedural: Interventions: Functional Training and Application of Devices and Equipment).
-
7. Produce quality documentation and accurate billing that supports facility and payer requirements (Business: Documentation);
 1. Produces quality documentation that includes changes in the patient's/client's status, a description and progressions of specific interventions used, and communication among providers.
 2. Maintains organization of patient/client documentation.
-
8. Demonstrate efficient delivery of physical therapy services (Business: Resource Management).
 1. Participates in the efficient delivery of physical therapy services.
 2. Demonstrates appropriate understanding of time management and appropriate use of clinical supplies and equipment when supporting physical therapy services.
