# FUTURE WILDCAT

#penncollegeready

YOU'RE

LET'S GET STARTED.

1

## ACTIVATE PCT ACCOUNT

Head over to the Applicant Dashboard, at [pct.edu/dashboard](https://pct.edu/dashboard), where you'll find your PCT Account Letter. This letter contains your Penn College username and temporary password that you'll use to activate your account at [pct.edu/activate](https://pct.edu/activate).

Once activated, you will use your PCT Account to access the Student Portal, your Penn College email, and more.

2

## MEET PLACEMENT REQUIREMENTS

Placement requirements ensure you have the math skills to hit the ground running and allow us to place you into the right first-semester courses. We recommend completing this step early to give you the full picture of what your future at Penn College will look like.

You can meet requirements by:

- ◇ Completing our online math placement test with satisfactory results
- ◇ Submitting an official SAT or ACT report with qualifying scores
- ◇ Sending an official college transcript with transferable math courses

[pct.edu/placement](https://pct.edu/placement)

3

## MAKE A COMMITMENT

Now that you've been accepted and met placement requirements, it's time to seal the deal. Let us know you plan to attend Penn College by confirming your intent to enroll. This consists of replying to your offer of admission by the deadline on your acceptance letter and paying the \$150 non-refundable tuition deposit through your Applicant Dashboard.

[pct.edu/dashboard](https://pct.edu/dashboard)

4

## TAKE THE NEXT STEPS

As soon as you make your official commitment to Penn College, you'll unlock access to a host of next steps like the ability to snag your seat for New Student Orientation and reserve your on-campus housing. Visit our Accepted Student Page for a complete rundown of what to do next and how to keep things moving.

While you may have been accepted to Penn College, your spot in your program is not secure until you've taken the steps above. Our programs are in high demand, which means some reach capacity and move to a waitlist. Confirming your intent to enroll early will help secure your spot.
