

Building Green Futures

Summer 2024 Career Exploration Program

Includes a paid internship up to \$1600 + vehicle mileage and other support services!

The Building Green Futures program provides exclusive training and unique access to hands-on work experience and credentials in the home energy and construction industries. Apply now!

The Opportunity

This paid three-week career exploration program runs June 10-28, 2024, Monday through Friday during day-time hours. The program is offered through Pennsylvania College of Technology's Clean Energy Center.

Start with two weeks of hands-on technical training and employability skills coaching.

- ◇ When: June 10–14 and June 17–21, 8:30 am – 4:00 pm daily
- ◇ Where: Pennsylvania College of Technology's Clean Energy Center, 2245 Reach Road, Williamsport, PA

Then, explore the career through a one-week job shadowing experience with a local employer.

- ◇ When: June 24–27, 8:00 am – 4:00 pm (daily times may vary)
- ◇ Where: Employer field sites in either Lycoming or Clinton County

What are the benefits?

- ◇ Discover new and exciting career opportunities in the building performance industry.
- ◇ Earn multiple industry-recognized credentials
- ◇ Meet and job shadow with employers that are ready to hire skilled talent
- ◇ Access a wealth of career opportunities in the green building industry!

What are the requirements?

- ◇ Must be 18+ and able to work in Lycoming and Clinton counties.
- ◇ Just bring yourself! All materials and lunches will be provided during the training and field assignment.
- ◇ Wear comfortable work clothes that can get dirty. Close-toed shoes are a must.

Space is limited! Use the link or scan the QR code to apply to the first round by May 21st!
