

**Pennsylvania  
College of Technology**  
A Penn State Affiliate

**FUTURE MADE  
BY HAND**

1,000,000+  
IDEAS

IF

**you made the future by hand, would**  
it be different from today? Would it be  
more thoughtful, imaginative, and intuitive?  
Would it work better for more people  
throughout the world?

If you put more into today, could you  
get more out of tomorrow? If you create  
your future at Pennsylvania College of  
Technology, the answer is “yes.”

# The Future Needs You

**At Penn College, you actually live what you'll become.**

Right now, today, this moment. That's the approach that has made Penn College unique for more than 100 years. Our tomorrow-minded students know what it takes to build fulfilling, successful lives for themselves—that's why they're here. Not only for the hands-on job experience, but also for the full-on college experience. For getting right down to it, working with companies, learning from experts, and taking the future into their hands.

## Your Path

**150+ LEARNING LABS**

**16-STUDENT AVERAGE CLASS SIZE**

**17:1 STUDENT-TO-FACULTY RATIO**

**70+ STUDENT ORGANIZATIONS**

**4K INDUSTRY PARTNERS**

**COMPREHENSIVE ACADEMIC SUCCESS RESOURCES**

**3:1 AVERAGE LAB-TO-LECTURE HOURS**

**CREDIT FOR RELEVANT LIFE EXPERIENCES**

**SEAMLESS ASSOCIATE-TO-BACHELOR-DEGREE PATHWAYS**

**NCAA DIVISION III ATHLETICS**

**CUTTING-EDGE FACILITIES & EQUIPMENT**

**WIDESPREAD INTERNSHIPS & CLINICALS**

**GLOBAL EXPERIENCE OPPORTUNITIES**

## EXPERIENCE ACQUIRED

**In industry-driven labs, you're not just building and**

sharpening your skills. You're learning alongside faculty already proven in their careers, working with the latest technology, and pushing your boundaries. You're doing the in-demand work that tomorrow needs, the kind that drives the economy, on top-of-the-line equipment in next generation facilities. Across every degree and credential, you're becoming qualified not just to thrive in your industry, but to lead it.

# 97.6%

**GRADUATE  
PLACEMENT  
RATE**

# GROW

# THE

# NG

## Begin at the Beginning

Here, you'll use the same equipment as

leaders in your field. Whipping up gourmet cuisine in state-of-the-art commercial kitchens. Perfecting welding skills in the expansive 55,000+-square-foot facility. Growing plants sustainably in our hydroculture garden. You'll be actively immersed in your career and see the impact your work will have on the industries of tomorrow.

# TOMORROW

# S IN THE

# MAKING

# HERE

you'll use each day as practice for the next.

Working out problems, seeing the results, and tackling them again—until you can solve them in your sleep. Gaining the knowledge and support that make things start happening for you. Like job offers long before graduation, for example. You won't just grow your career. You'll begin it on day one.

# PRACTICE MAKES PROFESSIONAL

Go ahead. Pick your profession. Then define it.

At Penn College, students are learning to work, solve, and lead in a wide range of fields.

## THOSE WHO CAN, TEACH

Not only are our faculty excellent teachers, but they are also

passionate about working in their fields. They have a strong local presence as business owners and industry experts. And, as mentors, they'll use their extensive experience to help you decide which path is right for you. With small class sizes, these professors and instructors get to know you. They are deeply committed to seeing you succeed, at school and after graduation. That's why Penn College classes are never taught by graduate students or teaching assistants, and why our curriculum is constantly updated and fine-tuned to meet workforce needs.

# BECAUSE YOU CARE.

BECAUSE  
YOU CARE.

## Health Science Pathways

Pick your path and pursue a career in one of the most essential fields.

### Biomedical Sciences (B.S.)

Explore the engaging intersection of biology and medicine in preparation for careers in biomedical sciences and laboratory science. This is an excellent choice if you're thinking about our Physician Assistant master's program.

### Healthcare Leadership & Administration (B.S.)

Build on your education with an online completion program that opens doors to endless opportunity within healthcare, including advancement to leadership and administrative positions.

### Prehospital Medicine (B.S.)

Gain a strong foundation in prehospital medicine with hands-on training for emergency careers.

### Dental Hygiene (A.A.S.)

Train in our on-campus dental hygiene clinic where you'll treat real patients. You'll also have the option to pursue your bachelor's online.

### Physical Therapist Assistant (A.A.S.)

Learn what it takes to promote an active recovery process and help patients lead pain-free lifestyles.

### Physician Assistant (M.S.)

Dive into a two-year program where you'll gain the expertise to evaluate, diagnose, and treat medical conditions.

### Radiography (A.A.S.)

Master the latest technology to assist the healthcare team in making informed decisions.

### Surgical Technology (A.A.S.)

Become an integral part of an O.R. team, providing care to patients before, during, and after surgery.

### If you dream of making a difference in healthcare,

you've come to the right place. Whether you're looking to work directly with patients as a physical therapist assistant or dental hygienist or prefer making an impact in research or laboratory science, we have you covered. Whatever pathway you choose, you'll master the specialized skills and confidence to thrive in one of the most purpose-driven industries.

I'M DANIELLA.

### MY DEGREE: PHYSICAL THERAPIST ASSISTANT

My Passion: Supporting my Patients' Recoveries

Daniella dreamed of a career that would allow her to make a difference. Her work as a physical therapist assistant does exactly that. Through a delicate balance of compassion and critical thinking, Daniella thoughtfully guides her patients through the recovery process. She takes pride in delivering expert-level care while meeting patients where they are, cheering them on, and making meaningful connections. Daniella also appreciates the flexibility of her field, which gives her the opportunity to provide care in a variety of settings and the freedom to serve as a traveling PTA and see the country.

## Nursing

### From the E.R. to the clinic, the operating room to the recovery

room, nurses make a lasting impression. At Penn College, you'll find a lineup of rigorous hands-on programs, dedicated support in small classes, and technology-centric labs outfitted with a family of high-fidelity mannequins that emulate the real thing. Here, you'll learn from expert faculty with real-world experience who are determined to motivate, inspire, and prepare you for one of the most challenging and rewarding career fields.

- ◆ Complete clinical rotations at a variety of high-acuity facilities, including level 1 and 2 trauma centers, with specializations in critical care, in-patient pediatrics, in-patient mental health, and community-based healthcare.
- ◆ Join a growing network of 3,800+ nursing graduates pursuing their passion with world-class medical providers.
- ◆ Train for success in a program with close to 100% job placement while learning alongside peers who score far above the national and state first-time pass rates on the National Council Licensure Exam (NCLEX).

I'M STEPHANIE.

### MY DEGREE: NURSING

My Passion: Saving Lives

Stephanie is no stranger to adversity. A car accident severely challenged her ability to continue her coursework. But she remained determined, leaned on supportive faculty, and put in the extra time to earn her nursing degree. Stephanie thrives in chaos. When the going gets tough, she excels. Today, she's a flight registered nurse for Air Methods. Challenges are an everyday reality. And she's overcoming them with ease and confidence. Knowing the value of standing strong against all odds, Stephanie created the FLIGHT (Fearless Learning in Good & Hard Times) Commencement Award and the SOAR (Students Overcoming and Rising) Fund. Both efforts give students the extra boost they need to rise above and seize a brighter tomorrow.

# BECAUSE YOU DESIGN.

**Ever stop and wonder, “Who thought of this?”** Trace the origin and you’re guaranteed to find a creative problem solver unafraid to ask, “What if?”

Innovation and imagination run free at Penn College. From inspired wedding cakes to cutting-edge apps, our makers are pouring their hearts and minds into the process. Because perfecting their crafts is the ultimate endgame. Whatever you’re called to design, build, bake, or program, we say, “Bring it on.”

## Graphic Design

**In this career-focused program, you’ll fine-tune your talent** alongside a like-minded community of creatives. Faculty and students embrace a can-do culture that welcomes challenges, pushes boundaries, and curates a collection of standout portfolios. With a bar that high, it’s no surprise that so many students earn national awards for their eye-catching work.

## I’M HALEY.

### MY DEGREE: ARCHITECTURE

My Passion: Designing Earth-Friendly Buildings

It’s easy to see how Haley fell in love with architecture. She was drawn to math and art at an early age and was inspired by her artistic grandfather. In fact, he designed her childhood home. As her senior project, Haley illustrated how to retrofit her beloved home to become a passive building—a practice she learned through her internship experience at the Passive House Institute US. Haley now works full time at this non-profit committed to decarbonizing the built environment by making high-performance passive practices the mainstream market standard.

## Game & Simulation Programming

**How will you make your mark on tomorrow?**

With a degree in Game & Simulation Programming from Penn College, the opportunities are endless. In this specialized pathway, you’ll master skills that unlock potential across all fields—from video game creation to simulation software design. And when you’re ready to cut loose from coursework, put your talents to the test with the Wildcat esports club.

## I’M CORY.

### MY DEGREE: INDUSTRIAL DESIGN

My Passion: Crafting Fun Things

All he wanted in life was to find joy in the task at hand. That’s the mindset that led Cory to study Industrial Design at Penn College. Assignments never felt like work. That’s because he was fully engaged and using his imagination to inspire inventive solutions. After graduation, this focus on fun led him to Orlando, where he’s working today as the lead fabrication designer for the custom sign creator responsible for interactive displays for Universal and Disney.

## I’M ALISHA.

### MY DEGREE: BAKING & PASTRY ARTS

My Passion: Inventing Amazing Cakes

After graduating from Penn College, Alisha began working as a cake decorator at the popular Lynn Sandy’s Bakery in Scranton, PA. Her creativity and dedication to the business earned her the title of executive pastry chef. From single-serve cupcakes to picture-perfect wedding cakes, she’s created it all. Her resume includes cakes for NASCAR, WWE, and other well-known clients along with reader’s choice awards from regional publications. The icing on the cake? Now, she’s the boss. Alisha purchased Lynn Sandy’s Bakery in 2022.

# BECAUSE

## One of the most rewarding ways to shape

## Human Services & Restorative Justice

**You want to spark positive change, lift up others, and**

- ◆ Explore a holistic approach that examines the individual, community, and society.
- ◆ Practice your skills in a specialized lab space dedicated to collaboration and hands-on activities.
- ◆ Get real-world experience with in-depth community-based practical learning internships.
- ◆ Pursue an associate's in two years or seamlessly continue for your bachelor's in four.

## Building Construction

**Whether family homes or commercial structures,**

- ◆ Train in a variety of expansive labs creating true-to-scale projects like framing, roofing, concrete, and masonry.
- ◆ Put your techniques to the test with real-world assignments like the Habitat for Humanity home—a unique opportunity that's giving current students first-hand experience constructing a house from start to finish.
- ◆ Begin with an associate's degree in Building Construction Technology, Architecture, or another construction-related major and seamlessly continue on for the bachelor's.

12

13

# KEY TAKEAWAYS

## Critical thinkers are in demand across all organizations.

Bring technical know-how and expert problem-solving skills and you're guaranteed to thrive wherever you land. Tomorrow makers with trouble-shooting abilities excel in fields like automation. Pursue this path with us and you'll find a diverse lineup of industry-driven programs to position you for success.

### BUILDING AUTOMATION PATHWAYS

When it comes to blazing your career path, flexibility is paramount. Michael came to Penn College for an associate's. After jumping into his lab work, he discovered an interest in controls and communications. This newfound curiosity prompted him to add a bachelor's in Building Automation Engineering Technology to his resume. We call this a dual degree. And it's a common pathway to building automation. You can choose your associate's from the programs below and level up in the bachelor's for even more career prospects.

- ◇ Electrical Construction
- ◇ Electrical Technology
- ◇ Electronics & Computer Engineering Technology: Robotics & Automation Emphasis
- ◇ Heating, Ventilation & Air Conditioning Technology
- ◇ Information Technology: Network & User Support
- ◇ Mechatronics Technology
- ◇ On-Site Power Generation Technology

CHECK OUT HIS BLOG POST  
[pct.edu/michael-blog](https://pct.edu/michael-blog)

### INTERNSHIP EXPERIENCE

#### MICHAEL SORMILIC

##### BUILDING AUTOMATION ENGINEERING TECHNOLOGY

In the summer of his junior year, Michael accepted an internship as a controls technician where he was able to flex his skills alongside industry experts.

*"FROM THE CLASSROOM TO THE LABS, THE TECHNOLOGY, EQUIPMENT, AND THE PERSONAL RELATIONSHIPS WITH PROFESSORS COULD NOT HAVE BETTER PREPARED ME FOR MY INTERNSHIP. I CAN SAY I FEEL CONFIDENT WORKING ALONGSIDE MY COWORKERS, ASKING QUESTIONS, UNDERSTANDING THE WORK BEING DONE AS WELL AS BEING ABLE TO CONTRIBUTE TO THE EFFORTS."*

### Automation Engineering Technology

#### Walk into any manufacturing facility and you'll see

countless examples of automation in action. From conveyor systems to robots, efficiency is everywhere. This pathway allows you to choose your area of specialization (Mechatronics or Robotics & Automation), but also captures the full scope of electrical, mechanical, and robotic processes in the automated manufacturing environment. So when graduation rolls around, you'll be ready to hit the ground running—engineering and designing with the employer of your choice.

### Automated Manufacturing & Machining

#### In the world of manufacturing, efficiency is everything.

If you can bring an eye for innovation and the standout skills to step-up production, you'll instantly set yourself apart. Pursue an automated manufacturing and machining degree from Penn College and you'll train in the newly renovated 12,200-square-foot automated manufacturing lab packed with industry-grade equipment like multi-axis milling and turning centers, multi-axis CNC machines, industrial robots, and more.

# BECAUSE YOU CREATE.

PHOTO CREDIT: LYTLE PHOTOGRAPHY COMPANY

## From products and services to solutions

and processes, opportunities to create reach far and wide. Join a community of visionaries pursuing their passions in all types of industries from polymers to machining. Their interests might be diverse, but their focus remains the same. They're driven by a desire to innovate and destined to transform their futures and the industries they'll go on to lead.

## I'M JESSIE.

**MY DEGREE: LANDSCAPE/HORTICULTURE TECHNOLOGY** (Now Landscape/Plant Production Technology)

My Passion: Growing a Business

From the labs at Penn College to the years she spent crafting wedding arrangements out of her parent's garage, Jessie dreamed of opening a floral design studio she could call her own. In 2024 that dream became a reality for this graduate. Visit Hamilton Blvd. in Allentown, PA, and you'll find Jessie in her creative space, hosting design workshops and creating imaginative arrangements for her clients' most memorable occasions.

## INVOLVEMENT

Our students are always ready to try something new or get better at what they do. Our 70+ clubs and organizations help them do just that. Develop leadership skills as a mentor or tutor, make change in student government, compete in intramurals, or attend weekly events. There are lots of opportunities to get involved. Looking for something to do? Just head over to [engage.pct.edu](https://engage.pct.edu) to see the latest.

## COMMUNITY

Whether you want to live in one of our apartment-style residence halls, commute, or reside just off campus on Millionaire's Row, you'll enjoy being part of a strong campus culture with access to all clubs and campus services. No matter where you choose to reside, you'll experience the benefits of campus life.

+ ○ +

Want to bring your car? No problem. Parking spaces are for first-year students, too.

## ENGAGEMENT

When you want a break from your studies, all you have to do is step outside your door. Challenge your friends to a game of pool, cheer on the Wildcats at a game, try out our student-run restaurant, Le Jeune Chef, or head to the BBQ grills after class for a low-key get-together. Relax with a session of goat yoga. Get creative with arts and crafts. Or take the stage during an open mic night. Events and activities are everywhere you look.

## I'M JEFF.

**MY DEGREE: MANUFACTURING ENGINEERING TECHNOLOGY**

My Passion: Making Cool Things

He's not just called to chase inventive ideas. Creating is part of Jeff's identity. That's why he was drawn to Penn College. Spending three hours in the lab for every one hour in lecture gave Jeff a fully immersive experience that prepared him for his role with Near Earth Autonomy, where he's a mechanical engineer responsible for designing physical components to support robotics and software teams who are charged with developing autonomous systems for drones.

**MEET JEFF**  
[pct.edu/jeff](https://pct.edu/jeff)

## A BIRD'S EYE VIEW

There's so much to do on campus, it's hard to narrow it down. Here are a few of our favorites.

**1. FISH REAL ESTATE LEADERSHIP CHALLENGE COURSE:** Flex your balance and your teamwork skills on a ropes course, tightrope, tire traverse, and more.

**2. SUSQUEHANNA RIVER:** Fish nearby rivers and streams or drop in your kayak for a weeknight paddle down the Susquehanna.

**3. WILLIAMSPORT WATER AUTHORITY TRAILS:** Unwind on some of the area's most beautiful trails, located just a few minutes from campus.

**4. OUTDOOR STUDY NOOKS:** Soak up the sun and this week's lessons—just steps away from all the library's resources.

**5. CENTER FOR CAREER DESIGN:** Stop by for everything from mock interviews to a closet packed with free professional attire.

**6. MADIGAN LIBRARY:** Meet friends for a coffee at Bookmarks Café or collaborate with classmates in a private study room.

**7. DISC GOLF:** Challenge your classmates to a game of disc golf. The nine-hole layout starts at the Army ROTC house and ends at the Field House.

**8. DAVIE JANE GILMOUR CENTER:** This building is home to the Hudock Center for Academic Excellence, Financial Aid, Admissions, and more.

**9. THE COLLEGE STORE:** Stock up on all your supplies from books and spirit wear to essential tools and equipment.

**10. THE FITNESS CENTER:** Take a break from class and hit the gym where you'll find everything from treadmills and cardio machines to free weights and a sauna.

**11. BUSH CAMPUS CENTER:** Stop in for a full schedule of activities like campus bingo, wing night, bible study, and club meetings.

**12. THE ROCK:** Check out the latest student artwork on our 26-ton always-changing painted rock.

**13. DENTAL HYGIENE CLINIC:** Take advantage of \$5 student teeth cleanings at our on-campus clinic.

**14. FIELD HOUSE:** Round up your friends and stop in for a pick-up game of basketball, arrow tag, glow roller skating, and more.

**15. UPMC FIELD:** Take in a lacrosse or soccer game and cheer on your fellow Wildcats.

**16. ROSE STREET COMMONS:** Play catch with some friends. Hang your hammock in a tree. Or relax on a blanket with your favorite book.

**17. COLLISION REPAIR LAB:** Have a fender bender? No problem. Just pay a \$10 shop fee plus the cost of parts, and collision repair students will take care of the rest.

**18. DR. WELCH WORKSHOP:** Collaborate with like-minded creators at the Makerspace where you'll find everything from sewing machines to lathes.

**19. DUNHAM CHILDREN'S LEARNING CENTER:** Set your little one up for success with on-campus childcare.

**20. ARMY ROTC HOUSE:** One of the many perks of being a cadet is access to the ROTC house, located just up the road from the Gilmour Center.

**21. DOWNTOWN WILLIAMSPORT:** Whether you want to hop on the bus or go by foot, downtown shops and restaurants are just a mile away.

**WANT A CLOSER LOOK?  
CHECK OUT OUR  
VIRTUAL TOUR.**

# ON-CAMPUS LIVING

Living in the heart of campus is one of the best ways to take in the full college experience. Complete with a dining hall, convenience store, and fitness center, this facility has everything you need and lots more. You'll even have a spot to safely store your bike.

Most first-year students live in one of six residence halls in Rose Street Commons, which includes both apartment-style and traditional dorm layouts. Space is limited and spots fill fast. We recommend reserving yours as early as possible for the best selection.

Take a look inside residence halls in our virtual tour.

With lots of green space, the outside of the Commons is just as welcoming as the inside.

Thanks to suite-style layouts, there are plenty of options for hanging out with your roomies.

Located inside Dauphin, Fuel offers drinks, snacks, and grab-and-go sandwiches.

## STUDENT LIFE

The best part of living with a group of students pursuing different paths is how they band together to make Penn College their own. With so many ways to get involved in college life, you'll always be a part of something here. Because the college experience is about so much more than classrooms, lectures, and textbooks. It's about exploring, joining, leading, and recharging, too.

**OFF-CAMPUS LIVING**  
Interested in living off campus? We've got you covered there, too. We maintain a list of options that meet code and safety requirements and are exclusively for Penn College students.

## STUDENT PERKS

- Study in Williamsport—home of the Little League Baseball® World Series
- Biannual Career Fair hosting 300+ employers
- Dedicated support from Counseling Services
- The Dr. Welch Workshop: A Makerspace at Penn College
- Major General Fred F. Marty Veterans and Military Resource Center
- Access to childcare through the Robert & Maureen Dunham Children's Learning Center
- Le Jeune Chef Restaurant discount and etiquette dinners
- Leadership development
- Student-staffed help desk for IT support
- Resumé, headshot, and business card service
- Career Gear Clothes Closet
- Affordable car repair service opportunities at the Automotive Labs
- Proximity to PA Wilds and Pocono Mountains
- Tickets to Journey Bank Community Arts Center shows
- Free Williamsport area bus service
- Access to Susquehanna River Walk and Ridge Trail

## MICHAEL J. HUDOCK, SR. CENTER FOR ACADEMIC EXCELLENCE

Ups and downs are a natural part of the college journey. Whether you're struggling with grades or personal challenges, you'll find the support staff and resources to keep you moving in the direction of your goals.

EXPLORE [pct.edu/academicexcellence](https://pct.edu/academicexcellence)

As a student, you can get insight from the field by partnering with an alumnus through our mentoring program. You can also tap into alumni networks here in Williamsport and in the nearby metropolitan areas of Philadelphia, New York City, Pittsburgh, and Washington, D.C., to take advantage of internships and job opportunities.

EXPLORE [pct.edu/careerdesign](https://pct.edu/careerdesign)

I'M DYLAN.  
**MY DEGREE: ENGINEERING DESIGN TECHNOLOGY**  
My Passion: Building Fast Cars

Dylan grew up watching NASCAR with his dad. And has been a massive race fan ever since. When it came time for college, Dylan found a career path that would put him close to the action—designing parts for the race industry. Just after graduating from Penn College, he started with The Garage Shop in North Carolina. Shortly after beginning his new gig, Dylan was called on to design front and rear suspension brackets for a Ford Roadster that topped a whopping 200 mph in a sanctioned race. Now, he's working with the NASCAR Cup & Truck Series' team Front Row Motorsports as their design/metrology engineer for the 2025 season.

MEET DYLAN  
[pct.edu/dylan](https://pct.edu/dylan)

## Polymer Engineering Technology

The future demands sustainable solutions.

That's why we're training the next generation of engineers and designers to lead the charge. Polymer Engineering Technology students are immersed in hands-on labs. They're mastering industry-wide processes using cutting-edge equipment to imagine smarter, stronger, and safer solutions. From creating high-performance airplane parts to lifesaving healthcare devices, the potential is there. And so are our Polymer Engineering Technology graduates—excited and prepared to seize the possibilities.

## Electronics & Computer Engineering Technology

Just down the road from Penn College is QorTek, Inc.—

a world leader in the creation of electronics components for the United States Department of Defense. Their location, culture of curiosity, innovative approach, and electronics focus have been an ideal match for Electronics & Computer Engineering Technology graduates. Check out the lineup of talent at QorTek and you'll find a host of graduates, including several senior-level positions in engineering and printed circuit board design.

## INDUSTRY SPOTLIGHT: QORTEK, INC.

CHECK OUT THE VIDEO AT  
[pct.edu/qortek-video](https://pct.edu/qortek-video)

**Penn College is nestled within historic Williamsport, near**

the Victorian mansions of Millionaire's Row built by the lumber barons of the 1800s. We're next door to some of Pennsylvania's most beautiful State Parks, forests, and Class A Wild Trout Streams. Just a short walk from the natural beauty of the Susquehanna River, main campus sits at the base of Bald Eagle Mountain. Hit the hiking trails, campgrounds, and mountain biking routes for scenic views and outdoor activities. Downtown Williamsport is lively with art galleries, restaurants, breweries, and cafes, not to mention one of the East Coast's finest performance venues, the College's Journey Bank Community Arts Center.

# EXPLORATION

## STUDENT TRADITIONS

- Wildcat Weekend Bonfire
- Pre-Finals Midnight Breakfast
- Battle of the Lumber Soccer Games
- Wildcat Madness Basketball Kickoff
- Yellow It Out—Suicide Prevention Awareness
- End-of-Year Block Party

## WILLIAMSPORT WATER AUTHORITY TRAILS

Just minutes from campus are miles of trails with endless opportunities to cut loose for a run or take it slow and soak in the sights and sounds of nature.

## SUSQUEHANNA RIVER WALK

Located less than a mile from campus, this scenic paved pathway connects to area parks and borders the river. Students can access nearby campus to complete a three-mile loop.

## JOURNEY BANK COMMUNITY ARTS CENTER

The 2,000-plus-seat venue located in downtown Williamsport offers everything from Broadway-style productions and comedy acts to live musical performances.

15 TOP-10 FINISHES

4-WHEEL DRIVE CAR

15 TEAM MEMBERS

100% DEDICATED CLUB SPACE

2 ENDURANCE EVENT WINS

20 YEARS OF COMPETITION

## DRIVEN TO SUCCEED

HERE'S TO THICK MUD, GNARLY ROCKS, full-throttle thrills, hard-fought laps, and the guaranteed camaraderie that comes with team sports.

FOR NEARLY 20 YEARS, the Penn College Baja SAE team has crisscrossed the country, hauling their custom-designed, single-seat off-road vehicle to compete with the likes of Clemson, Michigan, Ohio State, Rochester Institute of Technology, Texas A&M, Virginia Tech, Cornell University, and other worthy rivals.

2024 WAS DIFFERENT. For the first time, Penn College hosted the event—giving us an opportunity to show off more than our racecar.

OVER 10 MONTHS, our can-do campus community came together to move earth, take down trees, prepare the track, and ready the venue. Lucky for us, we had an energetic planning committee and a team of talented forestry and heavy equipment students and faculty who were up for the challenge.

2024 WILL ALWAYS BE A RACE TO REMEMBER. Our team battled it out on home soil against over 100 collegiate teams representing 34 states, Brazil, and Canada to snag a top-10 spot overall and fourth place in the famed endurance competition.

AS WE ALWAYS SAY AT PENN COLLEGE, "THERE'S NO SUBSTITUTE FOR REAL-WORLD EXPERIENCE." And that's what our students got. From the rigorous prep to the post-competition satisfaction, this event was clearly a win for the home of hands-on learning.

SCHNEEBELI EARTH  
SCIENCE CENTER

**LOCATED JUST 15 MINUTES SOUTH OF MAIN CAMPUS,** the Schneebeli Earth Science Center is home to a host of programs from diesel and heavy equipment operations to forestry and landscape/plant production. If you envision yourself enjoying a career in the great outdoors, this is the place to be.

## HANDS-ON LABS

- ◆ 400 acres of natural forestland
- ◆ New fully operational sawmill
- ◆ Expansive lab spaces for diesel and heavy equipment
- ◆ 125-acre heavy construction equipment operations site
- ◆ Manicured 5-acre arboretum
- ◆ 6,500+ square feet of greenhouses for landscape and plant production

## LUMLEY AVIATION CENTER

**JUST OFF THE AIRSTRIP AT THE WILLIAMSPORT REGIONAL AIRPORT,** you'll find the 50,000-square-foot Lumley Aviation Center. Packed with 20+ aircraft ranging from gliders and general aviation aircraft to corporate and airline models, this expansive facility offers everything you need to put your future in motion.

Whether you pursue your associate's degree or bachelor's, you'll kick off the day with an hour of theory. Then follow it up with nearly six hours of hands-on training in advanced labs using real operational aircraft and specialty tooling. With all of that real-world training, you'll master the technical know-how to earn your FAA Mechanical Licenses and the confidence to thrive in an exciting field.

# Work with experts to become an expert

## Penn College's strong corporate

partnerships impact every step of your journey—from your first day in the classrooms and labs, to career placement (oftentimes, well before graduation) and beyond.

## A FEW OF OUR CORPORATE PARTNERS INCLUDE:

Pfizer, B. Braun Medical, West Pharmaceutical Services  
UPMC, Geisinger, WellSpan Evangelical  
The Hershey Company, Ball Corp.  
Lockheed Martin, GE, Cummins  
Honda, Ford, Fiat, Chrysler, Tesla, Nationwide  
Blaise Alexander Family Dealerships  
PennDOT, DEP, DCNR  
FedEx, UPS  
Groff Tractor & Equipment, Komatsu, Caterpillar, Volvo Construction Equipment  
Johnson Controls, Schneider Electric, Honeywell and Automated Logic  
Miller Electric, Fronius USA, Hypertherm, High Steel Structures  
Levy Restaurants, Wolfgang Puck  
Whiting-Turner, Gilbane, Construction Specialties, Inc., Allan Myers  
Lycoming Engines, Piedmont Airlines  
Wegmans Food Markets  
National Security Agency  
PMF Industries  
Corning Inc., Shell Polymers, SEKISUI KYDEX, Benton Foundry  
Pacproinc, Phillips Corp./Haas Automation, Acero Precision  
Kenworth of Pennsylvania, Bergey's Truck Center, Sherwood Freightliner

## How do our corporate partnerships directly benefit Penn College students?

### EDUCATION AND EQUIPMENT

From precision healthcare to polymers, our partners are as hands-on as our students, helping Penn College deliver a competitive edge. Through these partnerships, students have access to a robust collection of foundational and state-of-the-art industry equipment.

### EMPLOYMENT OPPORTUNITIES

Experience is the best teacher. Our corporate partners hire our graduates for their ability to jump right in and advance quickly.

### INNOVATIVE PROGRAMMING

Future-readiness is a joint project between educators and industry partners. Together, we design innovative programs that position students to thrive in their future fields.

### SCHOLARSHIPS AND AWARDS

Our corporate partners bolster student opportunities through scholarships and sponsorships, and help us attract outstanding professors.

## Penn College × Lycoming Engines:

### AN INDESTRUCTIBLE PARTNERSHIP

When you're training the next generation, it makes sense to partner with the best in business—like Lycoming Engines. They're a worldwide leader in piston engine production for the general aviation industry. And they're located just one mile from main campus. This mutually beneficial relationship translates into a huge win for Penn College students. From aircraft and equipment donations to generous scholarships and support of the popular Baja SAE off-road race team, partnerships like this set tomorrow makers up for success—wherever their paths may go. If you're recruited to join the team at Lycoming Engines, you won't be alone. This advanced engine manufacturer employs 100+ Penn College alumni from a variety of programs including aviation, automated manufacturing and machining, and welding and metal fabrication.

## ROTORFEST: REAL TRAINING

# REAL IMPACT.

It's 7 a.m. and low-level fog hangs in the air. Wind rips through campus, stretching the large American flag to its limit. Students from the Incident Command System Operations class gather in front of their mobile command post, eager for the big day. It's Rotorfest time.

Soon a fleet of helicopters and emergency response vehicles arrive along with 600 high-school students and staff from more than 10 counties. Organizing an event of this magnitude requires expert planning and next-level training.

But when you look across emergency management and homeland security students' faces, you won't catch a sign of concern. That's because they're 100% ready for the day—and all the ups and downs that come with executing a complex operation.

Leading up to the training exercise, students spent months learning the ins and outs of organizing a large-scale event. They explored the detailed roles and results of incident command operations that impact emergency management services at the state, local, and national level. Students were assigned various responsibilities related to planning, safety, logistics and communications.

Rotorfest is one of the many hands-on exercises executed by emergency management and homeland security students. It's also an interactive career day for students from K-12 schools and career and technology centers.

Thanks to simulations and real-world training like Rotorfest, students know precisely what it takes to respond to challenging situations with ease and intention.

## EMERGENCY MANAGEMENT & HOMELAND SECURITY

### STUDENTS MANAGED COORDINATION OF:

- ◇ Civil Air Patrol
- ◇ Geisinger Life Flight
- ◇ Laurel Mountain K9 Search & Rescue
- ◇ North Central Task Force/Loyalsock Volunteer Fire Department
- ◇ Pennsylvania Army & Air National Guard Pennsylvania State Police
- ◇ Pennsylvania Emergency Management Agency
- ◇ PMC/Susquehanna Regional EMS
- ◇ U.S. Coast Guard
- ◇ Williamsport Bureaus of Police & Fire

**" PUT YOUR FEET TO THE FIRE. THAT'S WHEN YOU'LL KNOW IF YOU'VE GOT THE SKILLS AND CONFIDENCE TO THRIVE UNDER PRESSURE. "**

**WILL SCHLOSSER**

**EMERGENCY MANAGEMENT & HOMELAND SECURITY INSTRUCTOR**

## THE WORLD

<b>AUG 1</b>	Transfer application	recommended deadline

## The Future Invested

### STUDENTS FIRST

We believe hands-on education should be within reach for all eligible students. That's why our admissions process is simple. There's no need for national tests or essays. As long as you submit transcripts, you're in. And thanks to rolling admissions, you'll receive your admissions decision sooner.

#### 1 Complete the Application

Apply via the Penn College application. First-year undergraduate students can use Common App. Both options are free and you only need to submit one.

#### 2 Submit Your Materials

Once your application is processed, you'll see what types of documentation we need in your Applicant Dashboard. This will always include a transcript from your most recently attended school, but we may need additional items depending on your particular situation and major.

..... GET ACCEPTED .....

#### 3 Meet Placement Requirements

Our programs are rigorous, which is why you'll need to show that you're up for the challenge. Think of it as an assessment of your current math skills to determine your best path forward to succeed in your intended major. We recommend taking your placement test as early as possible to allow time for leveling up with developmental math if needed.

### LIGHTENING THE LOAD

Come to Penn College, and you'll benefit from investing in your education right away and continue to see that investment multiply after graduation. We work with students and their supporters to facilitate the admissions process and strive to make education possible through financial aid and scholarships.

**Pennsylvania  
College of Technology**  
A Penn State Affiliate

Pennsylvania College of Technology is an accredited institution and a member of the Middle States Commission on Higher Education (MSCHE or the Commission) [www.msche.org](http://www.msche.org). Pennsylvania College of Technology's accreditation status is Accreditation Reaffirmed. The Commission's most recent action on the institution's accreditation status on June 23, 2022, was to reaffirm accreditation.

MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation (candidate status) activities for institutions of higher education including distance, correspondence education, and direct assessment programs offered at those institutions. The Commission's geographic area of accrediting activities is throughout the United States.

Penn College operates on a nondiscriminatory basis.
